

*We treat your goods as if they were our own*

## *Our History ...*

... begins in 1992 in Livorno, Italy, as a logistic and transport services company specialized in project cargo and perishable goods.

What really makes us unique, is our ability to reach the remotest, more challenging and hostile destinations all over the world.

As true leaders in last mile logistics, we manage door delivery shippings in some of the most troubling and hardest to reach regions of our planet.

It is thanks to these abilities that today we are also specialized in managing humanitarian operations offering logistics support to several international NGOs operating in developing countries as well as in countries hit by wars or natural disasters.

Our goal is to satisfy special needs and, to do that, we have always been thinking big.

With this attitude, Project Cargo Ltd, operating into the logistics market since the early 70s, set up in 1992 a mergering with Greenshields Cowie Ltd, one of the earliest freight forwarding companies in UK which, since 1975, had been a whole subsidiary of Crown Agents Ltd, an internationally recognised procurement company established more than 175 years ago.

Our ideas never stopped growing up as well as our commitment and our passion for this job. It is with this in mind that, in 2014, we expanded even further our horizons creating a Joint Venture with another world class player in India, which led to the birth of G.P.C. JV in Mumbai.

# *Project cargo shipments tailored to your requirements!*

We provide to our customers with a high level of knowhow gained in over twenty years of experience on heavy lift and over gauge machineries such as:

- ✓ industrial vehicles;
- ✓ prefabricated buildings;
- ✓ machineries;
- ✓ oil & gas industry;
- ✓ complete industrial plants;
- ✓ Job-sites' machines and accessories.

We choose the most suitable means of transport for your shipments to deliver on time and in good conditions even in the most difficult and dangerous places in the world by solving seemingly impossible situations.

The handling is performed with special equipment integrated with multimodal transport operations including vessels and aircrafts chartering, if necessary.

# *Remote destinations and last mile logistics!*

We are industry leaders in “last mile” logistics, especially within dangerous and difficult to reach destinations.

Greenshields Project Cargo, with its high level of experience and professionalism, aims to assist all those operators who have to face complicated shipments that only a few freight forwarders in the world can handle. We provide high level of warranties for the handling of the last mile logistics, or rather the last step of the shipment for door deliveries in war or high risk areas.

We also guarantee competence and flexibility in problems solving that may arise in countries with big infrastructural deficiencies, rigid bureaucracies and political instability.

Some noteworthy destinations reached:

- |                |               |
|----------------|---------------|
| ✓ Afghanistan; | ✓ Chad;       |
| ✓ Pakistan;    | ✓ Congo;      |
| ✓ Bhutan;      | ✓ Somalia;    |
| ✓ Nepal;       | ✓ Sudan;      |
| ✓ Uganda;      | ✓ Mozambique. |

Greeshields Project Cargo is committed to supporting the world's most vulnerable people by delivering humanitarian relief to victims of conflict and disaster.

Thanks to the cooperation with Greenshields Cowie Ltd and Crown Agents in London and Washington DC, we have extensive experience managing complex humanitarian distribution projects on behalf of major donors, governments and NGOs.

We provide to our customers a strong specialization in door delivery shipments to developing countries or in state of emergency due to natural or sociopolitical events.

Particularly, this service is intended for international NGOs as well as to all those industrial and/or commercial enterprises participating in international tenders such as those offered by, for instance:

- ✓ United Nations;
- ✓ World Bank;
- ✓ African Development Bank;
- ✓ USAID;
- ✓ EuropeAID.

## *Humanitarian Logistics ...*

# *Efficiency and professionalism in emergency contexts.*

We offer a wide range consultancy service for tendering procedures since the feasibility study up to the transportation and the Proof Of Delivery (POD) for the customer.

# *Shipments of perishable goods: customized solutions and tracking system!*

Keeping a correct and constant temperature in food and perishable goods shipments is essential. That is why Greenshields Project Cargo offers a careful and pinpointed refrigerated transport service that guarantees a constant temperature control using the latest technologies.

From food products up to pharmaceuticals, we use special devices able to detect the temperature from loading to unloading point, sending alerts in case of abnormal temperatures.

Our temperature controlled transport service is carried out both for ocean, land and air cargo as well as for combined transports.

# *Why choose us?*

## *Here are 10 good reasons ...*

**We will never let you down: Our team will always be at Your side!**

1. Huge experience
2. Skills for Logistics
3. No possible deliveries
4. Humanitarian relief supply chain
5. Worldwide Network
6. Tailormade services
7. Wholly insured
8. Financialy Strenght
9. Globtrotters & multi-language staff
10. Best service best Price
