

# DOCUMENTS NECESSARY FOR OUT OF GAUGE TRANSPORTS

Documents required for the feasibility study of an out of gauge transport are:

- Technical Drawing of the package to be transported (with the overall dimensions, net/gross weight, barycentre, lifting and lashing points)
- Original packing list
- Pictures of the over gauge items

According to the above mentioned documentation, Greenshields Project Cargo is able to arrange the “Tailor Made Planning” as per **UNI ISO 9001** rules, planning the shipment from the loading place to the delivery places, considering critical points of the shipment, choosing the most suitable services and, if necessary, the cecking and **Survey** of roads to transit, in order to budget the cost for this particular kind of transport.

In case of routing order the procedure will start immediately. We will get in touch with the Public Road Authorities, submitting letter issued by the customer. This is necessary in order to obtain the road permits and road escorts whereas and whenever necessary. Find enclosed the “[Dichiarazione Sostitutiva Atto di Notorietà](#)” form.

Greenshields Project Cargo offers :

- **Tailor Made Plan (UNI ISO 9001)**
- **Route Survey** in all over the world.
- **Complete assistance** from the place of loading to the place of delivery
